-  **Disaster Recovery Solutions**

What we do

ERP SOLUTIONS

-  **ERP Solutions**
-  **Accounting Software**
-  **Managed IT Services**
-  **Premium AMC**

CCTV Security Surveillance Systems

Closed-Circuit Television widely known as CCTV is being used in practically all office buildings for surveillance purpose. Business and companies have nowadays realized the valued of installing CCTV cameras on their premises. There are various options available from traditional analog to latest IP camera. Choosing the right CCTV solution for your requirement including video storage and retention is important. We provide wide range of CCTV solutions from analog, DVR, NVR, IP, PTZ, dome, box, bullet cameras which suits each customer unique requirements

Time Attendance System

MH SOLUTIONS can help you in designing and implementing enterprise grade web based software with robust features to simplify Time & Attendance process. It provides comprehensive solution for improving business productivity and also ensures discipline and it also can be integrated with payroll seamlessly. We study each client unique requirement carefully and suggest the best fit. Various options like card based, biometric, face recognition, PIN, PVR high performance devices are available on Wi-Fi, 2G,3G, GPRS connectivity

Access Control System

The increased need for overall security for premises has led to a greater reliance on access-control systems that incorporate new technology. A well-designed and implemented system has resulted in reduced operating and maintenance costs, in part due to hardware standardization and the elimination of traditional key-based systems. We can provide you state-of-the-art access control software that integrates the most advanced security technologies with innovative networking capabilities to bring you full-featured security solutions.

Structured Cabling Solutions

A structured cabling system provides a platform upon which an overall information system strategy is built. MH SOLUTIONS experienced and dedicated team provides 'end to end' service from design to implementation. We design and build cabling infrastructure systems that support multiple voice, data, video and multimedia systems. We will help you evaluate, design and install the optimum integrated system for your company.

We provide infrastructure cabling of the highest quality, to ensure that your networks run at full wire speed and maintains the highest possible availability.

Telecom Solutions

MH SOLUTIONS Telecom Division provides Telecommunication solutions with the state-of-the Art products in field of Telecommunication, Telecom, Networking, Security, Monitoring, Control, Telecom Software. Representing the world leader in the field of communication Avaya & Panasonic, MH SOLUTIONS has the expertise skilled Engineers for Installation of IP Telephony System.

UTM (Unified Threat Management) Solutions

To meet the individual security requirements of small and medium-sized companies, an easy-to-use complete solution is the answer. MH SOLUTIONS provides UTM firewalls with innovative security and network features for the reliable protection of your network and your data against Spam, viruses and malware.

Backup & Data Protection

Protect your data spread across head office, branch office or any remote location with MH SOLUTIONS backup and replication solution. Data availability is highly critical and data security is highly sensitive for any organization. We have expertise in designing and implementing comprehensive data availability and protection solution in association with major technology leaders as per industry best practices. Our high quality solution will help you to backup, replicate and do instant recovery on both physical and virtual environment including proactive monitoring and alerting.

Routing And Switching

Switching and routing is core of your network. Well-structured network design can reduce latency and increase the speed of your network for better performance. There are various elements that we need to consider while designing switching like L2,L3, IPbase, LANbase, redundancy, latency, broadcast domain , multi-casting, collision domain, POE, PEO+, stacking , SFP etc. We can assist you in designing, implementing, supporting high speed network backbone with redundancy & security without compromising performance.

IPT Solutions

If you're just starting out and haven't wired your new office yet, you can save more by using IP-PBX Telephony Solution with IP telephones. Since IP phones share your computer network, you don't need two different networks. Less wire, less equipment, less complication and, of course, less expense and get features such as IVR or a company directory that connects employees stationed in different physical sites.

Firewall and Network Security

If you are looking for a High Performance Data Center Firewall, an Enterprise Next Generation Firewall for your Distributed Enterprise site or small business, there is a physical or virtual appliance to fit your unique Network Security requirements. MH SOLUTIONS enables you to choose from a broad range of world-class security capabilities and configuration options, anything from pure a high Performance traditional firewall to fully loaded next generation firewall

VPN Solutions

Interconnect your office at lowest cost without compromising on security and performance. We can design and implement best connectivity solution for your main office and branch offices based on the bandwidth requirement and internet usage. Policy based or route based, IPsec or SSL, Static or Dynamic, whatever the situation we can advise and implement the right connectivity solution for your complete business entities.

Disaster Recovery Solutions

Business continuity planning and disaster recovery are two critical aspects that cannot be overlooked by any modern business. Even a small data loss can result in significant business losses that may eventually lead to complete business failure. MH SOLUTIONS ensure your business continuity and prevent loss of data by creating a remote backup system. DR solutions that can be scaled as per your business requirements which ensure you to pay only for what you use.

Managed IT Services

MH SOLUTIONS is known for its remarkable flexibility when it comes to delivering ICT solutions and support.
